ABOUT ME

Computer Science & Engineering undergraduate at VIT Chennai (2024–2028) with a strong foundation in full-stack software development, system design, and clean code principles. Experienced in building production-grade applications using Java, Python, JavaScript, and C++. Demonstrates collaborative team skills with exposure to RESTful API design, secure authentication systems, relational databases, and background job processing. Passionate about leveraging technology to solve real-world problems and staying current with industry-wide best practices and emerging trends.

EDUCATION

Vellore Institute of Technology, Chennai, Tamil Nadu

2024–2028

- B.Tech in Computer Science and Engineering
- CGPA 8.39

TECHNICAL SKILLS

- **Languages:** Python, Java, C++, JavaScript,
- **Web Development:** HTML, CSS, Node.js, React.js, Express.js, MongoDB, SQL, REST APIs, Redis.
- **Dev tools:** VS Code, Git, Github
- **Core CS Fundamentals:** Data Structures and Algorithms, Operating Systems, Computer Networks (Basics), Object Oriented Programming (C++).

PROJECTS

Smart Event Management

- Built a full-stack web application for managing campus events with event creation, registration, and role-based access control.
- Developed REST APIs using Express.js and MongoDB, implementing JWT authentication (HTTP-only cookies) and bcrypt password hashing for secure user management.
- Implemented search, filtering, and pagination with debouncing to efficiently handle scalable event listings.
- Integrated BullMQ with Redis for background processing of automated emails such as registration confirmations and event reminders.

Stack: Web technologies, Backend APIs, Database
